Less than three responses?

We may have a situation where competition is sparse, but before we make that determination, we need to review our RFI/RFQ.

eBuy RFI/RFQ Review

- If the answer to any of the following questions is “yes,” competition may be unnecessarily limited:
 1. Is the SOW narrowly defined with overly restrictive specifications or performance standards?
 2. Were the specifications overly specific, limiting sources to a single manufacturer?
 3. Is the order written in such a way to as create a continuous arrangement with the incumbent contractor?

eBuy RFI/RFQ Review

If the answers to all preceding questions were “no:”

We have met our competition requirements. Document the file.
